Insights

- Major customer drop-off occurs during the lead qualification stage
- Cellular communication generated the highest customer conversions
- Customers aged 26–45 showed stronger conversion behavior
- Excessive campaign contacts negatively impacted conversion rates
- Management and technician professions contributed more conversions

Key Takeaways

- Improve lead qualification strategies to reduce funnel drop-offs
- Focus marketing campaigns on high-converting customer segments
- Prioritize cellular communication for better campaign performance
- Reduce unnecessary repeated customer contacts
- Use data-driven targeting to improve overall conversion efficiency
